

## TABULKA XII: ČESKO-ANGLICKÉ NÁZVY REFERENČNÍCH STANDARDŮ EDQM POUŽITÝCH V ČESKÉM LÉKOPISU

2025

Tabulka zahrnuje české a anglické názvy chemických referenčních látek (CRL/CRS), rostlinných referenčních látek (HRL/HRS), infračervených referenčních spekter, biologických referenčních přípravků (BRP) a referenčních materiálů (RM) uvedené v katalogu Evropského lékopisu. Označení, že se jedná o CRL/CRS se zde obvykle neuvádí. BRP, HRL/HRS a RM jsou v katalogu, a tedy i v tabulce, označeny.

Jednotlivé položky lze vyhledat v katalogu EDQM, jehož aktuální verze je dostupná na internetové adrese <http://www.edqm.eu> v části Reference Standards, a objednat online (WebStore) nebo elektronicky na adrese [orders@edqm.eu](mailto:orders@edqm.eu).

| Český název                            | Anglický název                                 |
|----------------------------------------|------------------------------------------------|
| Abakavir-sulfát                        | Abacavir sulfate                               |
| Abakavir pro test způsobilosti         | Abacavir for system suitability                |
| Abakavir pro identifikaci píků         | Abacavir for peak identification               |
| Acebutolol-hydrochlorid                | Acebutolol hydrochloride                       |
| Acebutolol nečistota B                 | Acebutolol impurity B                          |
| Acebutolol nečistota C                 | Acebutolol impurity C                          |
| Acebutolol nečistota I                 | Acebutolol impurity I                          |
| Aceklofenak – referenční spektrum      | Aceclofenac – reference spectrum               |
| Aceklofenak pro identifikaci píků      | Aceclofenac for peak identification            |
| Aceklofenak nečistota F                | Aceclofenac impurity F                         |
| Aceklofenak nečistota H                | Aceclofenac impurity H                         |
| Aceklofenak nečistota I                | Aceclofenac impurity I                         |
| Acemetacin                             | Acemetacin                                     |
| Acemetacin nečistota A                 | Acemetacin impurity A                          |
| Acemetacin směs nečistot               | Acemetacin impurity mixture                    |
| Acesulfam draselná sůl                 | Acesulfame potassium                           |
| Acesulfam draselná sůl nečistota B     | Acesulfame potassium impurity B                |
| Acetát celulosy                        | Cellulose acetate                              |
| Acetát-sukcinát hypromelosy            | Hypromellose acetate succinate                 |
| Acetazolamid                           | Acetazolamide                                  |
| Acetazolamid pro test způsobilosti     | Acetazolamide for system suitability           |
| N-Acetyl-cys <sup>1</sup> -kalcitonin  | N-acetyl-cys1-calcitonin                       |
| Acetylcystein                          | Acetylcysteine                                 |
| Acetylcystein nečistota C              | Acetylcysteine impurity C                      |
| Acetylcystein nečistota D              | Acetylcysteine impurity D                      |
| β-Acetyldigoxin                        | β-Acetyldigoxin                                |
| β-Acetyldigoxin pro identifikaci píků  | β-Acetyldigoxin for peak identification        |
| Acetylcholin-chlorid                   | Acetylcholine chloride                         |
| Acetylsulfadiazin                      | Acetylsulfadiazine                             |
| Acetyltryptofan racemický              | N-Acetyltryptophan                             |
| Acetyltyrosin                          | N-Acetyltyrosine                               |
| Aciklovir                              | Aciclovir                                      |
| Aciklovir pro test způsobilosti A      | Aciclovir for system suitability A             |
| Aciklovir pro identifikaci nečistoty C | Aciclovir for impurity C identification        |
| Aciklovir pro identifikaci nečistoty G | Aciclovir for impurity G identification        |
| Acitretin                              | Acitretin                                      |
| Acitretin pro identifikaci nečistoty A | Acitretin for impurity A identification        |
| N-Acyl-fosfatidylethanolamin ze sóji   | N-acyl-phosphatidylethanolamine from soya bean |
| Adapalen                               | Adapalene                                      |
| Adapalen nečistota C                   | Adapalene impurity C                           |
| Adapalen pro identifikaci píků         | Adapalene for peak identification              |
| Adenin                                 | Adenine                                        |
| Adenosin                               | Adenosine                                      |
| Acholeplasma laidlawii BRP             | Acholeplasma laidlawii BRP                     |

| <b>Český název</b>                                    | <b>Anglický název</b>                    |
|-------------------------------------------------------|------------------------------------------|
| Akamprosát vápenatá sůl                               | Acamprosate calcium                      |
| Akamprosát nečistota A                                | Acamprosate impurity A                   |
| Akarbosa                                              | Acarbose                                 |
| Akarbosa pro identifikaci                             | Acarbose for identification              |
| Akarbosa pro identifikaci píků                        | Acarbose for peak identification         |
| Aktivátor prekalikreinu v albuminu BRP                | Prekallikrein activator in albumin BRP   |
| Alanin                                                | Alanine                                  |
| Alantoin                                              | Allantoin                                |
| Albendazol                                            | Albendazole                              |
| Albendazol pro test způsobilosti                      | Albendazole for system suitability       |
| Albendazol směs nečistot                              | Albendazole impurity mixture             |
| Albumin lidský pro elektroforézu BRP                  | Human albumin for electrophoresis BRP    |
| Albumin lidský pro velikost molekul BRP               | Human albumin (molecular size) BRP       |
| Alfadex                                               | Alfadex                                  |
| Alfakalcidol                                          | Alfacalcidol                             |
| Alfakalcidol nečistota B                              | Alfacalcidol impurity B                  |
| Alfakalcidol pro test způsobilosti A                  | Alfacalcidol for system suitability A    |
| Alfakalcidol – referenční spektrum                    | Alfacalcidol – reference spectrum        |
| Alfentanil-hydrochlorid hydrát                        | Alfentanil hydrochloride hydrate         |
| Alfentanil nečistota D                                | Alfentanil impurity D                    |
| Alfuzosin-hydrochlorid                                | Alfuzosin hydrochloride                  |
| Alfuzosin pro test způsobilosti A                     | Alfuzosin for system suitability A       |
| Alfuzosin pro identifikaci píků                       | Alfuzosin for peak identification        |
| Alimemazin-hemitartarát                               | Alimemazine hemitartrate                 |
| Alimemazin pro test způsobilosti                      | Alimemazine for system suitability       |
| Alkuronium-chlorid                                    | Alcuronium chloride                      |
| N-Allylstrychnin-bromid                               | Allylstrychnine bromide                  |
| Almagát                                               | Almagate                                 |
| Almagát – referenční spektrum                         | Almagate – reference spectrum            |
| Almotriptan-malát                                     | Almotriptan malate                       |
| Almotriptan pro test způsobilosti                     | Almotriptan for system suitability       |
| Alopurinol                                            | Allopurinol                              |
| Alopurinol nečistota A                                | Allopurinol impurity A                   |
| Alopurinol nečistota B                                | Allopurinol impurity B                   |
| Alopurinol nečistota C                                | Allopurinol impurity C                   |
| Alopurinol nečistota D                                | Allopurinol impurity D                   |
| Alopurinol nečistota E                                | Allopurinol impurity E                   |
| Alprazolam                                            | Alprazolam                               |
| Alprenolol-hydrochlorid                               | Alprenolol hydrochloride                 |
| Alprostadil                                           | Alprostadil                              |
| Altizid                                               | Altizide                                 |
| Altizid nečistota B                                   | Altizide impurity B                      |
| Alverin-citrát                                        | Alverine citrate                         |
| Alverin nečistota C                                   | Alverine impurity C                      |
| Alverin nečistota D                                   | Alverine impurity D                      |
| Amantadin-hydrochlorid                                | Amantadine hydrochloride                 |
| Ambroxol-hydrochlorid                                 | Ambroxol hydrochloride                   |
| Amfetamin-sulfát                                      | Amphetamine sulfate                      |
| Amfotericin B                                         | Amphotericin B                           |
| Amfotericin B pro identifikaci píků                   | Amphotericin B for peak identification   |
| Amfotericin B pro mikrobiologické stanovení účinnosti | Amphotericin B for microbiological assay |
| Amikacin                                              | Amikacin                                 |
| Amikacin nečistota I                                  | Amikacin impurity I                      |
| Amikacin pro test způsobilosti                        | Amikacin for system suitability          |
| Amikacin-disulfát                                     | Amikacin sulfate                         |
| Amilorid-hydrochlorid dihydrát                        | Amiloride hydrochloride                  |

| <b>Český název</b>                                                                              | <b>Anglický název</b>                                                       |
